Stemmons Central Gold Master version 2.2.1.2 has officially been released to Stemmons' clients on May 2021. This release includes a few nicely added features and minor bug fixes reported by Stemmons' clients.

Below is the list of newly added features and bug fixes:

1. **Homepage Performance Improvement**: Major improvement in the performance of the Home page is added to this release. The internal post is also auto expand instead of auto collapsed.
2. **Save Grid State**: this feature is now available. The user will be able to customize the columns show in any data grid of the applications and it will retain until the cache is cleared.
3. **Cases and Entities Attachment UI improvements**: enhance in UI allow users to drag and drop multiple files/documents to attach to cases and entities.
4. **Implement process to capture broken link in Standards**: this new process is added to allow notifications to book authors to correct topics with broken links.
5. Fixed: Losing case metadata in cases
6. Fixed: Calculated Fields blanked out during External Entitie data synced.
7. Fixed: Calculated Fields are not auto-calculated when entity is created from the parent external datasource
8. Fixed: Entity View page error when no Title system code was configured.
9. Improved performance on entity list with related Updoc entities.
10. Fixed: Case ribbon buttons sensitivity
11. Fixed: Remove required field validation on re-open case
12. Fixed: issue with role relationship when title has single quote in name.
13. Fixed: captured Due Date changes in Case Activity Log
14. Case List optimization with Document button
15. Fixed: Special Character in User Account Name (SAM name) cause lists not to load.
16. Fixed: In Departments Application for Non-AD environment, Search option is now default to "Stemmons User" instead of "AD User"
17. Fixed: Format issue in notes when cases is sent in via Email.
18. Fixed: Reply to the original email will no longer create duplicate case but will update existing case.
19. Fixed: Parent Case search optimization

**Thank You ...**
